

## **CURRENT ARTICLE PROCESSING AND PUBLICATION FEES**

**Processing fees:** Authors are required to pay non-refundable article processing fee of ₦4,000 (or \$10USD) upon submission of their manuscript before the initiation of the review process. *This fee is rebated from the final article publication fees if the manuscript is accepted for publication.*

**Publication fees:** NIJOTECH charges publication fees to offset the costs of secretarial office maintenance, manuscript preparation, journal production, online publication and web hosting. The publication fees are charged based on the length of the final revised and accepted manuscript (where the manuscript has been formatted before submission following the [Author Guide and Template](#) provided on the NIJOTECH website.) Basically, manuscripts are not expected to exceed 14 pages, including figures, tables and plates. Each sub-figure is counted as a figure; tables, figures or plates that cover up to half a page is counted as two; and the combined total number of figures, plates and tables should normally not exceed 10 per article. Authors will incur extra charges for manuscripts that exceed these. The final article publication fees, which are computed based on the address of the corresponding author, are determined as shown in Table 1.

**Table 1: Estimated article publication fees irrespective of number of authors**

<b>Manuscript Specification</b>	<b>Cost for Authors based in Nigeria</b>	<b>Cost for Authors based outside Nigeria</b>
